The 1064 cattle just rise to the top. His calves are deep, thick, moderate, with a quiet disposition, and outstanding carcass traits. His daughters in production are showing the strong maternal traits.

Kids, check out our Cross Diamond Ag Youth Initiative on page 67-- you could win a commercial bred heifer for your herd!

CROSS DIAMOND BRED HEIFERS

This offering of commercial heifers consists of purchased Red Angus heifer calves from Red Angus operations in Nebraska. The heifers were purchased, then rigorously culled for quality, disposition, foraging ability, pelvic size and health. After studying these heifers for nearly a year, we believe we are providing a solid group of heifers who will become fertile, capacious, easy-fleshing mother cows, with soundness and adaptability. Buy with confidence that these females will have a positive impact on your replacement program. The heifers will sell according to frame size and calving dates.

Health Program

- pelvic measured, pre-breeding
- all BVD-PI tested negative
- current on vaccinations for reproductive diseases
- Long Range on grass, poured generic Ivomec
- vaccinated with 1st round of Guardian

Breeding

March bred:

- synchronized and AI'd: 5/29- 6/1
- Sire: POKE NebP707 9116 I064
- bulls in: 6/2-6/25

Projected calving dates: begin March I, 2018, 30 days

April bred:

- bulls in 6/20-7/11

Projected calving dates: begin April I, 2018, 20 days

These heifers will sell, gate cut, in groups of five or more FOB Cross Diamond headquarters, Bertrand, Neb. They are tagged according to frame size. The winning bidder will have the right to choose any group of heifers: large frame, medium frame, small frame or baldy/brockle.

Solid red heifers (170 head total)

- 40 head March-bred large frame: yellow tags
- 56 head March-bred medium frame: green tags
- 40 head March-bred small frame: blue tags
- 34 head April-bred: orange tags

Baldy/brockle heifers (75 head total)

- 58 head March-bred: white tags
- 17 head April-bred: red tags

PAXTON RANCH-- 50 HEAD COMMERCIAL BRED HEIFERS

The Paxton Ranch, John and Jessica Warren, of central Nebraska are premier commercial cattlemen, known far and wide for their hard work, great cattle and excellent management. We are pleased and honored to work with John and Jessica to sell a package of their bred females. These females are sired by Cross Diamond, Hall Red Angus and Beckton bulls.

Contact: John Warren-- 308/636-2281 or 308/650-9000

Health & Breeding

- poured at preg check with Cydectin
- current on vaccinations for reproductive diseases
- natural service, exposed June 12 to July 12 to Beckton Red Angus bulls

Projected calving dates: begin March 15, 2018, 30 days

These females have been on grass all summer. They will run on winter range with protein supplement until sale time.

Buyer will have ability to select purchased heifers from group of 110 head.

50 head sell FOB from Paxton Ranch headquarters, Stapleton, Neb.

HORSLEY RED ANGUS-- 20 HEAD OPEN HEIFER CALVES

While we at Horsley Red Angus have been customers of Cross Diamond for several years, we feel very honored that Scott and Kim have asked us to consign a group of commercial heifers right from the heart of our replacement pasture to this year's sale. Many of these commercial cow prospects are progeny of genetics we have purchased from Cross Diamond in the past. Our experience with the genetics from Cross Diamond is they produce cattle that possess input efficiencies that allow those cattle to "do more with less." This has been a very important trait for us in building an efficient cow herd. These heifers are 3/4 Red Angus, 1/4 Simmental, straight red heifers.

Health Program

2017 Spring Born: Feb./March heifers, 600#

Health program - 2 rounds of following vaccinations:

Vista Once, Vision 7 w/somnus, Endovac Bovi

PI BVD tested negative, Bangs vaccinated, poured with Cydectin

These heifers will sell in groups of five or more. 20 head sell, gate cut, FOB from Cross Diamond headquarters, Bertrand, Neb.

PLATTE RIVER RANCH-- 25 HEAD OPEN HEIFER CALVES

Glen Summers, Platte River Ranch has been a Cross Diamond and Solid Rock bull customer since 2011. In this time, he has made solid genetic investments in both his bull battery and in his commercial cowherd. Dams of this group of calves were purchased from Paxton Ranch, Neb. and JP Werner, Wyo. All of these heifers are sired by Cross Diamond and Solid Rock Red Angus bulls. These heifers are all tagged with the Red Angus Feeder Calf Certification Program tag, and are eligible for the Red Angus Pro-Cow tags. This is a fancy group of heifers who are gentle to work with and ready to prove their value as replacement females.

Health Program

2017 Spring Born: March/April heifers, 575-625#

Health program - Vista Once, Vision 7, Safeguard drench,

Ivomec pour-on, Bangs vaccinated

These heifers will sell in groups of five or more. 25 head sell, gate cut, FOB Cross Diamond headquarters, Bertrand, Neb.
