

Dependability...

"When we think of Cross Diamond Cattle Co., the first word that comes to mind is dependable. When we began using their bulls on our commercial Simmental-cross cows, our goal was to achieve more consistent-colored calves that would gain well. We accomplished that and have now come to expect increased weaning weights each year from our Cross Diamond sired calves. Our commercial herd consists of 500 Simmental/Angus cows and we've built a reputable herd of over 100 registered Red Angus cows, thanks in part to the bulls we've purchased over the years from Kim and Scott.

This dependability stretches far beyond the genetics of the bulls. Yes, we depend on Kim and Scott to provide us with outstanding herd bulls year after year, but their customer service is one reason why we are repeat buyers. It's a pleasure doing business with such honest, trustworthy people."
